

SPECIFICATIONS

Model Name	GPT-3002/3002W	GPT-3003/3003W	GPT-3005/3005W	GPT-3007/3007W
TELESCOPE				
Length	150mm			
Objective Lens Dia.	45mm (EDM 50mm)			
Magnification	30×			
Image	Erect			
Field of View	1°30'			
Resolving Power	2.8"			
Min. Focus Distance	1.3m (4.29 ft.)			
DISTANCE MEASUREMENT				
Measuring Range	(Target: Kodak White)			
Non-prism Mode	1.5 to 250m (5 to 820 ft.)			
In low light condition and without sun glare on target				
Prism Mode	3,000m (9,900 ft.)			
Condition 1* (1 prism)				
Measurement Accuracy	(Diffusing Surface)			
Non-prism Mode	±(10mm) m.s.e.			
1.5 to 25m (5 to 82 ft.)				
25m or more (82 ft. or more)	±(3mm) m.s.e.			
Prism Mode	±(2mm+2ppm×D) m.s.e. D: Measuring distance (mm)			
Measuring Time	1mm: Approx. 1.2 sec. (Initial 3 sec.)			
Fine measurement mode	0.2mm: Approx. 3 sec. (Initial 4 sec.)			
Coarse measurement mode	Approx. 0.5 sec. (Initial 2.5 sec.)			
Tracking measurement mode	Approx. 0.3 sec. (Initial 2.5 sec.)			
ANGLE MEASUREMENT				
Method	Absolute Reading			
Detecting System	H: 2 sides V: 2 sides	H: 2 sides V: 1 side		H: 1 side V: 1 side
Minimum Reading	1"/5"	1"/5"	1"/5"	5"/10"
Accuracy	2"	3"	5"	7"
DISPLAY				
Display Unit	Graphics LCD 160 × 64 Dots with backlight			2 sides
OPERATING TIME				
Including distance measurement	GPT-3000 series: 4.2 hours GPT-3000W series: 4.2 hours (Bluetooth On: 4.0 hours)			
Angle measurement only	GPT-3000 series: 45 hours GPT-3000W series: 45 hours (Bluetooth On: 25 hours)			
DIMENSION				
WEIGHT	336(H)×184(W)×174(L)mm [13.2(H)×7.2(W)×6.9(L)in.]			
Instrument (with battery)	GPT-3000 series: 5.1kg (11.2 lbs.) GPT-3000W series: 5.2kg (11.5 lbs.)			
Plastic Carrying Case	3.2kg (7.1 lbs.)			
OTHERS				
Bluetooth	Yes (GPT-3000W)			
Protection against water and dust	IP66 (with BT-52QA) (Based on the standard IEC60529)			
Ambient Temperature Range	-20°C to +50°C (-4°F to +122°F)			
Point Guide	Yes			
Laser Plummet	Yes			
Instrument Height	176mm (6.93in.)			
Laser Class	Class1 (for distance measurement) Class2 (Laser Pointer on)			

*Condition 1: Sight haze with visibility about 20km (12.5 miles) moderate sunlight with light heat shimmer.
The Bluetooth word mark is owned by the Bluetooth SIG, Inc. and any use of such mark by Topcon is under license.

SURVEY PRODUCTS: GPT-3000 series

GPT-3000/3000W series

Reflectorless Total Stations

TOPCON POSITIONING SYSTEMS, INC.

ISO 9001:2000
FM 68448

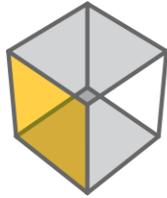

TOPCON CORPORATION

Important: In order to obtain the best results with this instrument, please be sure to review all user instructions prior to operation.

Your Local TOPCON dealer is:

TOPCON, the World Leader in Positioning Solutions, proudly introduces the world's first long-distance, reflectorless total station using Topcon's advanced pulse laser technology.

Long Range prismless operation (up to 250m)

Easy-to-use, reliable and safe

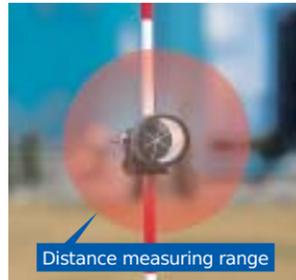

Topcon's unique pulse laser technology allows the GPT-3000/3000W series to measure up to 250m in reflectorless mode in complete safety and confidence. The Class 1 laser is so safe, you can even use it in heavy traffic areas. (Visible Laser Pointer: Laser Class 2)

Laser Class 1: Is not harmful to human health. It never exceeds the maximum permissible dose of light exposure under any condition.

Narrow measuring beams (invisible)

Non-prism mode

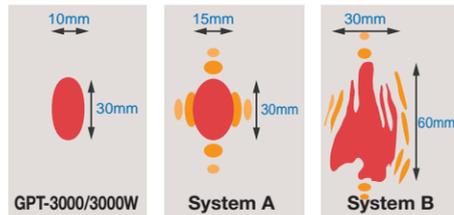

Distance measuring range

Prism mode

Dual Laser optics

Topcon's GPT-3000/3000W uses a dual laser optics system, one narrow beam for non-prism functions, and a broader beam when using a prism. This stabilizes the beam over long distances providing accurate measurement. Even in adverse atmospheric conditions such as heat shimmer.

GPT-3000/3000W

System A

System B

Putting the competition "on-the-spot" (at 50m)

Most reflectorless instruments use a laser for distance measurement, and each manufacturers product vary in their spot quality over distance. Topcon's GPT-3000/3000W uses the industries most advanced, highly focused infrared beam for a very stable, sharp spot, that is less resistant to "spreading" over distance.

Pick your point and measure. Accurately.

Along with its Pulse Laser diode for distance measurement, the GPT-3000/3000W uses Topcon's state-of-the-art visible diode technology as a laser pointer. It puts a bright, flashing spot of light exactly at the point to be measured. No more guessing what your measuring or what you've measured. What you point at is what you'll measure.

Pulse laser - precise measurements

The most important part of the measurement beam is its unique "pulse" technology. A pulse beam emits timed flashes of laser light. These flashes (or pulses) allow the laser to discern objects that may be close to the path of the point you are shooting. Now reliably shooting building corners, or an object through a chain link fence, is as easy as point and measure.

A "World's first" for Total Stations... Completely wireless communication

Bluetooth® wireless technology on-board

GPT-3000W Series provides cable-free, wireless operation. When used with a Bluetooth® wireless technology capable field controller, you can connect wirelessly to the GPT-3000W Series. No more cables to loose or break!

FC-100/1000 Field Controller

Perfect for use with the GPT-3000W Series, TOPCON's FC-100 field controller is now more convenient to use than ever with the addition of Bluetooth® wireless technology. Get rid of the cables. Go wireless with TOPCON's GPT-3000W Series and FC-100!

standard components

- GPT-3000/3000W series ..1 each
- Battery BT-52QA2 each
- Battery charger BC-27BR (120V) or BC-27CR (230V).....1 each
- Tool kit with case1 set
- Plastic carrying case1 each
- Silicon cloth.....1 each
- Plastic rain cover.....1 each
- Plumb bob set1 each
- Lens cap.....1 each
- Instruction manual1 each
- Sun shade1 each

General Construction, surveying, Earthmoving, Mapping. No matter what type of work you do, topcon has a tool that will help you get the job done right. the first time.
